Those who know of the whereabouts of the body are represented to be in Canada, and have endeavored to compel Hilton to come to terms through a lawyer. Hilton says that he will not through a lawyer. Hilton says that he will not give a dollar for the body, but wants the thieves.

SALT LAKE, August 11.—At the Mormon Tabernacle, on Sunday Afternoon, Apostle Joseph Smith delivered the most treasonable and intemperate speech that has been uttered in that treason-hatching place in many years. After arraigning the Government, he told the Saints to arm themselves, and to be sure and get the best of arms. The time had come. He also alluded to the *Tribune* as being the source of their troubles, and called upon them to clean it out. This appeared to strike the brethren favorably, and they responded with a hearty "amen." In ward meeting-houses last night equally intemperate language was indulged in, and to-day the city is full peared to strike the brethren favorably, and they ing-houses last night equally intemperate lan-guage was indulged in, and to-day the city is full of rumors. That the same Church which murof rumors. That the same Church which mur-dered 130 Arkansas emigrants at Mountain Meadows would let the streets of Salt Lake run red with the blood of Gentiles to-day, is the belief of many, and it is the expression that the Government, if it wishes to enforce the law in Utah. should send additional troops.

London, August 13.—The Times says of the gunboat fleet ordered by China, of which four have rrived on the coast and the remaining four are en route for China: Each of the wasps is capable of penetrating the armor of the Inflexible without being liable, from the extreme littleness and end-on position in time of action, to run much risk of being hit in return. Each has a displacement of 400

ons: speed, nine knots an hour; draught, eight

feet, with 274 and 38-ton guns, worked by bydraulic power. The Times asserts that the power and range of these guns are enormous. They have a superiority of penetralive power of twenty-five per cent over the guns of the *Dreadnaught*, the most formidable of English war-ships. The gunboats are named after the first letters of the Greek al-LONDON, August 15 .- In consequence of threats by natives on the Scarcies, coast of Africa, to destroy the British Custom-house at Kinkoukeh, the corvette Tenedos, with 200 men, homeward bound from Cape Colony, was ordered to Sierra Leone from Ascension on the 18th of July. Rome, August 14.—The health and strength of the Population wishless declined. His physicians

the Pope have visibly declined. His physicians insist on an immediate change of air, but the Pope refused to change his residence. Constantinople, August 13 -- There are now in Thessaly, Epirus and Macedonia 90,000 Turkish troops, exclusive of artillery and cavalry. These, together with the forces at Adrianople and Constantinople, makes an army of 160,000 men in European Turkey, more than would be required to deal with Greece in the event of war; but probable consequences of a rupture are not to be estimated by the number of troops.
